Snap-In Module Surface Mount Boxes

Premise Plus™

Cables To Go's Snap-In Module Surface Mount Boxes feature a compact, easy-to-install design. Snap-on top covers with write-on designation labels and clear-cover, self-adhesive tape and metal surface mounting magnets are supplied with each box. These boxes use only Cables To Go's 1-inch height Snap-In Modules for different configuration of jacks and connectors for maximum installation flexibility. Breakouts are on three sides of the box for raceway or cable entry. Modules can be easily snapped out of the front of the box so that changes can be made without opening the box.
